Re: Vernal Phosphate Tailings Dam Enlargement

Dear Ms. Linner:

Enclosed is a copy of the approval by the Utah Department of Natural Resources State Engineer for construction of the Tailings Dam at Vernal Phosphate Operation.

If you have any questions, please contact me at the above address.

Sincerely,

O. L. Fyock

Re: Chevron Tailings Pond Expansion

Gentlemen:

Plans and specifications for the above-mentioned project have been reviewed and approved by this office subject to the following conditions:

- 1) That this office be supplied with the names and qualifications of the inspectors for the project.
- 2) That this office be supplied with copies of the daily inspection reports. These are to be submitted weekly.
- 3) That this office be supplied with the results of all material tests performed during the construction period. The results of these tests should be submitted with the weekly inspection reports.
- 4) That this office be notified of any outside contractors to be used on the project along with their anticipated starting and completion dates.
- 5) That this office be notified of any change in the construction practice or materials to be used that are not represented by the construction documents on file. Any major changes must be approved in writing prior to their use.
- 6) That this office be notified when all cutoff trenches or foundation areas are excavated. No fill is to be placed until approval has been obtained by the State Engineer.
- 7) That this office be supplied with a final reproducible copy of the plans that represent the "as-constructed" project.
- 8) That this office be notified and involved in all final inspections of the constructed project.

Chevron Resources Co.

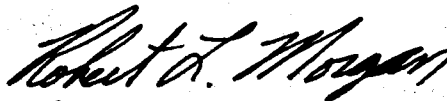

Page 2 of 2

October 25, 1985

Many of the preceding items are currently being complied with as a result of discussions we have had in the past. As we have also discussed, the "as-constructed" drawings will not be required until all stages of the project are completed. However, we would request you keep us informed as to the beginning and completion dates of each stage of the project.

If you have any questions concerning the approval of this project, please feel free to contact me or Richard Hall of our Dam Safety Section

Sincerely,

A handwritten signature in cursive script, reading "Robert L. Morgan".

Robert L. Morgan, P.E.
State Engineer
